Clover Tethered Mini

Using the tethered Mini to Mini setup, you can continue using your existing POS and simply use Clover in a standalone, non-integrated mode. Your cashier would enter the amount owing into the Sale App on their Mini and then prompt the customer-facing Mini to accept payment.

Keeping your Clover Mini clean is easy too. Clover has a smooth, touchscreen surface that can easily be disinfected by spraying a disinfectant onto a soft, lint-free cloth or any microfiber towel and wiping down the surfaces.

Take payments using Ethernet, WiFi or LTE.

Clover Mini is an all-in-one POS system that can take care of so much more than your payment processing. You can use it to help with accounting, inventory and customer loyalty – anything your business needs now and as you grow.
