Moneris®/MD

The polished power of Moneris Go Slim.

The Moneris Go Slim integrated device brings a mobile powerhouse to the checkout experience across your entire operation.

Benefits built for your big business goals:

Powerful functionality

Experience elite payment functionality combined with a powerful barcode reader, eliminating the need for additional hardware, and all backed by the latest security, PCI PTS v6.

Technology for today

Create a seamlessly modern checkout experience for customers and staff on a 6-inch touchscreen powered by Android 10 technology for efficient transactions anywhere in-store.

Unmatched integration opportunities

Integrate through wireless and cellular connectivity with Moneris Go semi-integrated API, ensuring a seamless and simple setup for new Moneris Go users and no additional work for existing users.

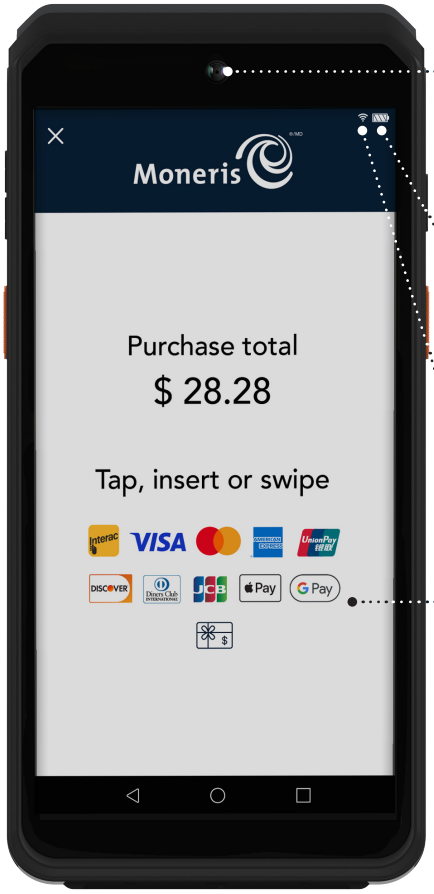

À la carte additions

Go beyond payment processing with gift card programs, dynamic currency conversion, tokenization, store and forward, installment payments, advanced reporting and more.

Moneris
